

Project Assignment

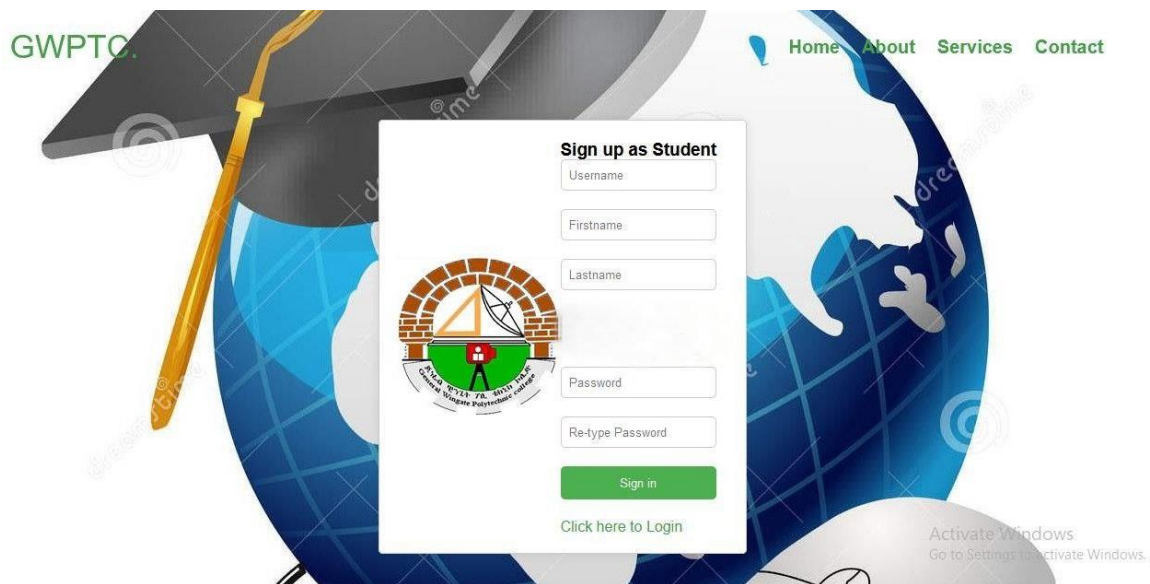

Design and implement a simple school management system for general Wingate specially for ICT department using PHP and XAMPP server? You can use the picture below as an example for your home page

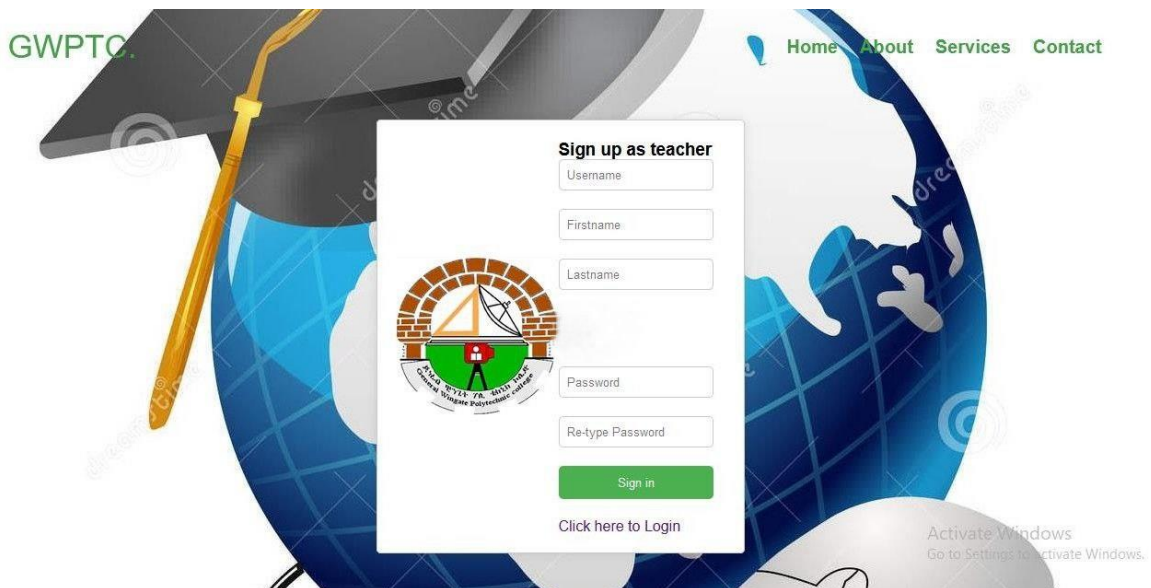

The system should include the following functionalities:

1. User Registration: Students should be able to register by providing their full name, username and password

Student signup page example

Teachersignuppage

The image shows the 'Sign up as teacher' page of the GWPTC website. The background features a blue globe with a graduation cap and a quill pen. The GWPTC logo is in the top left, and navigation links (Home, About, Services, Contact) are in the top right. A central white form titled 'Sign up as teacher' contains input fields for Username, Firstname, Lastname, Password, and Re-type Password, followed by a green 'Sign in' button and a 'Click here to Login' link. A circular logo with a sailboat is positioned to the left of the password fields. A Windows watermark is visible in the bottom right corner.
